EDUCATION

Narula Institute of Technology, *Kolkata* *2023 - 2027*
B.Tech in Information Technology

CGPA – 8.1

SKILLS

• Programming language: Java, Python,C

• Front-End: HTML, CSS, JavaScript, React.js

• Back-End: Node.js, Express.js

• Database: MongoDB, MySQL

• Tools: Visual Studio Code, Postman

• Soft Skills: Problem-Solving, Team Collaboration, Communication

PROJECTS

Meridian — Full-Stack Travel Booking & Listing Platform

- Built an MVC-based travel platform for creating, managing, and reviewing global property listings.
- Implemented secure authentication and session handling using Passport.js with MongoDB/Mongoose for scalable data management.
- Integrated Cloudinary and Multer for efficient cloud image uploads and storage.
- Developed a responsive UI with EJS and CSS3, featuring glassmorphism design, dark mode, and interactive modals.
- **Tech Stack:** Node.js, Express.js, MongoDB, Mongoose, Passport.js, Cloudinary, EJS, CSS3.

Facial Emotion Detection System

- Developed a real-time facial emotion recognition system using computer vision and deep learning techniques.
- Trained and deployed a model to classify human emotions from facial expressions via webcam input.
- Utilized image preprocessing and feature extraction to improve prediction accuracy.
- **Tech Stack:** Python, OpenCV, CNN, TensorFlow/Keras.

CERTIFICATIONS

- **Programming in Java – NPTEL (IIT Kharagpur)** | 79% | Elite + Silver
- **SAP ABAP Training |** Completed
